to me

Hi Jonathan,

Chase forwarded me your last few messages, as he's been dealing with a family medi this week and hasn't had an opportunity to reply.

To start, the Community Preservation Coalition is an advocacy and education project o For Public Land. The Trust For Public Land, along with five other nonprofits connected t Community Preservation Act categories, are all represented on our Steering Committe as representatives from CPA communities and other at-large members. CivicPlus is ou host, but we have no other affiliation with them.

As for the request that you sent Chase for a customized report on CPA project data, I'r we just don't have the capacity to fulfill requests like that. We've been short-staffed si pandemic began, and so by necessity, our work is focused entirely on supporting the r CPA programs at the local level. Chase was able to help out with the first few question had sent him, but he won't be able to create a research report for you.

With that said, we've worked very hard over the years in order to make our website th source of information on the statewide CPA program—this allows not only journalists li yourself, but also state legislators, municipal officials, and Massachusetts residents to ability to research the different components of the program even when we aren't able assist. We hope that you've found it helpful as you've worked on your story.

Best Regards,

-Stuart
